

PUBLIC NOTICE

Pursuant to Groundwater Assessment Report No. AIN20050001
Maysville-Mason County Landfill
Agency Interest No. 3013 / Permit No. 081-00006

The Environmental and Public Protection Cabinet, Division of Waste Management, intends to accept a Groundwater Assessment Report received from Maysville-Mason County Landfill in Mason County, Kentucky. The report describes completed assessment work, conclusions, and recommendations regarding the occurrence of heavy metals and organic compounds in four seeps adjacent to the closed residential landfill.

The Groundwater Assessment Report AIN20050001 concludes that the seeps are surface discharges of groundwater, not leachate. Detections of volatile organic compounds are believed to be a result of groundwater contact with landfill gas. The report recommends continued phytoremediation, a reduction of sampling parameters and frequency, and no further corrective action measures at this time.

The landfill is located at 7055 Clarkson Sherman Road, approximately five miles east of the intersection of State Route 546 (AA Highway) and U.S. 68 and approximately one-quarter mile south of the intersection of the AA Highway and Clarkson Sherman Road.
